A typically Spanish style home in the town of Macael here in Almeria Province. On the ground floor there are three rooms available as bedrooms or lounge, a small lounge area and a bathroom. The ground floor leads out onto a rear patio with outbuilding which accommodates the kitchen. Also from the patio there is access down some steps to the street and a further area which could be converted into living space or storage area. Upstairs on the second floor are two more bedrooms. A property with plenty of scope to be adapted and located in a quiet street close to the town centre of Macael.
